Objective:

- A motivated and skilled Full Stack Developer with 1 year of professional experience, seeking to contribute my expertise in web development and programming to a dynamic team. Eager to apply my skills and continue learning in a collaborative and challenging environment.

Skills

- Frontend Technologies: HTML, CSS, SAAS, JavaScript, TypeScript
- Backend Technologies: Node.js, Express.js, SharePoint, SPfx
- Database Management: MongoDB, SQL
- RESTful API Development
- Responsive Web Design
- CI/CD Pipeline
- Problem-solving and Debugging
- Team Collaboration
- Excellent Communication Skills
- Python

Experience:

Full Stack Developer Trainee

06/07/2023-025/12/2023

Qspider

- Developed user-friendly and responsive web interfaces using HTML, CSS, and JavaScript.
- Created dynamic and interactive frontend components using React.js.
- Built secure and scalable backend systems using Node.js and Express.js.
- Implemented RESTful APIs to facilitate communication between the frontend and back end.
- Integrated databases (e.g., MongoDB) to store and manage application data.
- Worked with version control (Git) and CI/CD pipelines to streamline development and deployment processes.
- Conducted code reviews to maintain code quality and adhere to coding standards.
- Collaborated in the development of microservices architecture for improved scalability.

Software Developer

April2024-Present

Smalsus Infolabs PVT LMT

- Developing a task management application using React.js, TypeScript, and SharePoint Framework (SPFx) to streamline workflow and enhance productivity.
- We are collaborating closely with stakeholders to design and implement user interfaces that are responsive and accessible using HTML, CSS, JavaScript, and frameworks like Bootstrap.
- Building efficient front-end components while integrating Node.js and Sharepoint for data management and backend operations.
- Optimizing application performance, ensuring cross-browser compatibility, and maintaining code quality through best practices and regular code reviews

- Working with MongoDB to manage large datasets and ensure smooth data retrieval and storage

Projects:**E-commerce Website**

- Designed and developed a full-stack e-commerce website using MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Implemented user authentication, product listings, and shopping cart functionality. Integrated payment processing using Stripe.
- Achieved responsive design for a seamless user experience.

Education

Bachelor of Technology in Computer Science
BSA College of engineering and technology(Mathura)

2019-2023

Certifications:

- MERN STACK Trainee Certificate from chroma campus, Qspider
